SIRE 2.0 – More Than Just an Upgrade. A Transformation in Inspection Philosophy

- ✓ Vessel's profile at OCIMF webpage is well structured.
 - ✓ No IT issues with pre-inspection phase.
 - ✓ Ship specific CVIQ available.
 - ✓ Effective handling of defect reporting system.
-
- Discrepancies between HVPQ and PIQ, resulting in negative observations.
 - Lack of a verification mechanisms and HVPQ editor limitations.
 - No available API for certificate validation or integration.
 - Inconsistent photograph orientation.
 - Inspection bookings lack visibility to OCIMF members.
 - Requests for comments on unpublished SIRE reports.
