

OCIMF committee structure

OCIMF implemented a new committee structure in the autumn of 2020. The implementation of OCIMF's new organisational structure provides a streamlined and more reliable operational model that enables OCIMF and its members to collaborate more efficiently and respond with greater agility to changes occurring across the marine industry. For all OCIMF members, the restructuring results in a wider range of opportunities to engage

and participate in the development of programmes, publications, advocacy and membership collaboration in a way that suits individual company needs, resources and availability.

Executive Committee

The Executive Committee (ExCom) is the senior policymaking committee of OCIMF. The membership of the ExCom is limited to 15. The Chairman and Vice Chairs are ex officio members. Members of the ExCom are elected at the Annual General Meeting.

Publications and Advocacy – Tankers, Barges and Terminal Interfaces Committee

The Publications and Advocacy Tankers, Barges and Terminal Interfaces Committee (P&A TBT) provides leadership and oversight in the delivery of best practice publications and regulatory advocacy that are focussed on preventing harm to people and the environment caused by transporting by vessel crude oil, oil products, petrochemicals and gas and their interfaces with terminals inshore and onshore.

Its primary objectives are to prioritise best practices in critical areas of health, safety, security and the environment (HSSE), to promote best practices and regulatory compliance through collaboration with governments and industry, and to maintain OCIMF's reputation as a foremost and trustworthy source.

Publications and Advocacy – Offshore Committee

The Publications and Advocacy Offshore Committee (P&A Offshore) provides leadership and oversight in the delivery of best practices and regulatory advocacy that are focussed on preventing harm to people and the environment caused by offshore marine operations, including vessels supporting oil and gas exploration, development and production with a particular emphasis within the 500m exclusion zone.

Its primary objectives are to prioritise best practices in critical areas of health, safety, security and the environment (HSSE), to promote best practices and regulatory compliance through collaboration with governments and industry, and to maintain OCIMF's reputation as a foremost and trusted authority on HSSE.

Programmes Committee

The Programmes Committee provides leadership and oversight in the development, operation and maintenance of inspection and management self-assessment programmes for promoting best practices and regulatory compliance. The Programmes Committee also oversees the provision of expertise in IT and cyber risk management to the Forum.

Its primary objectives are to effectively deliver and manage an integrated inspection programme, to effectively deliver and manage an integrated management self-assessment programme, to set and deliver objectives to meet or exceed ISO 9001 requirements, to manage the OCIMF Innovation and Technology Expert Group, and to maintain OCIMF programmes' reputation as a trustworthy source.
